STRATFORD

Considering that many of our leading citizens send their children to the Bridgeport schools, and that a good many more think a high school is too costly, and hardly needed so long as Bridgeport can be depended upon, it is probable there will be something said at the coming town meeting about abolishing the high school. If this should be done, as a representative citizen remarked, yesterday, there would be no need of purchasing the Sillick or any other property, as all could be accommodated at the center school. It is predicted that the conservative element in town will prevail on Monday night, if the town meeting is held at that time, and the proposition to buy the Sillick property will be voted down. But if that should happen the question of building a \$16,000 addition to the center school would still have to be met and decided.

The announcement which has been made that the first lecture in the library course will be given on October 4, has caused considerable amusement, as well as surprise. So far as the library is concerned, no date has been set, but the lectures usually begin in January. Since they are a winter diversion, it is probable that the library will be closed for the season. The property acquired for the church on Main street, as they are not of wood, and have been set according to an accurate survey, even if they are not a controversy about "bounds and meets" as there is regarding the property which borders on the grounds of the library.

The family of Mr. Falk, wife and three children, from Long Branch has arrived and will occupy a rent in the Danap house. Mr. Falk is the new newsdealer. Elliott Reed has been employed by the Hammond Beef Company in Bridgeport. Next week Mr. Louis Bierce will take his long deferred vacation.

Next Tuesday there will be an entertainment at the Methodist parsonage for the little folks with their mothers.

The Brotherhood of St. Andrew met last night at Christ church rectory for the purpose of entertaining the veterans of the 2nd Conn. Regiment is planned for next Saturday at his inviting country place.

On Sunday evening Mr. and Mrs. Peter Bergen welcomed a baby girl. Keep in mind the Housatonic grange exhibit for next Saturday.

Miss Beatrice Derby will conduct the exercises at the Grange meeting Saturday evening.

Saturday appears to be a favorite date for social functions. Students of how great minds run in the same channel. Here we are to have the Middlebrook entertainment on Saturday, the food sold at Mrs. Clayton's, and the high school at the Town Hall, and the grange meeting in the evening.

Some of our young men have gone out to shoot rails, and the law is off. Mr. Ernest H. Reed is home from St. Louis, where he went to fetch back the remains of his wife's father—Henry Clay Bartlett.

Miss Amy Gaines has gone to Illinois to take a two years college course, and George and Catherine have gone to a boarding school in Maine. Miss Mary Falken is going to a training school in New Haven, and the following young folks are going to the high school in Bridgeport: Florence and Claribel Lewis, Vivian and Tom Conline, Ruth and Louis Bristol, Frank Smith, Jack Bennetto and Christine Wells.

The town voted at the last meeting to purchase the lots on Barnum avenue for the Hollister Heights school, and agreed to give \$2,000 for the one acre of ground.

There is a good deal of local talent in town, and some of it will appear in the "Widow Hunt" which is to be given on the 25th inst.

Little Alfred Beach had a birthday party on Tuesday. In the fall his brother, Frederick, will go to school at Brookfield.

Rev. Nathan Ellsworth Cornwall is now chaplain of the Local Assembly of the Brotherhood of St. Andrew.

Miss Ruth Cable has gone to Nyack, N. Y.

Bears the Signature of *Chas. H. Petcher*

FAIRFIELD

The bills for the school board having been audited it is found that the total expense for maintaining the educational establishment for the school year 1908-9 amounts to \$23,454.83. The appropriation for the school year 1909-10 was \$25,700. Thus the appropriation has been exceeded by \$1,754.83. This is in part accounted for by the fact that five separate bills for but under a number of the school buildings—all those of two stories, or over; and extensive repairs had to be made. There are some good folks who think the school cost too much, and as one man remarked, "It is time to do away with the frills of education." What the frills are is an open question. The frills of reading, writing and arithmetic, as the only factors in a common school education have passed away. The times demand something more than was given in the old common schools. It is estimated that at the next town meeting the School Board will ask for \$30,000. This increase is warranted by the growth of the school population. According to a law placed upon the statute book at the last session of the state legislature, certain sanitary requirements in connection with all school houses must be complied with, and will be the duty of the Board. Officer to see that the law is enforced. It is thought by those able to judge in the matter, that this compliance will entail considerable cost, as some of the schools are not up to the mark.

Miss Marion Donaldson left town today for Boston, where she will enter Simon Green Hall, a business institution situated on the Fenway. At this college special branches of educational work are taken up, intended for young ladies for nurses, or to become proficient in the domestic arts, or to act as clerks in commercial houses—in other words to give them a profession by which they can earn a living.

Dr. Freney, of Waterbury, has been a visitor in town a few days at the Barrie residence on Unquowa road. Town Clerk Joseph I. Flint and wife, took a half day yesterday to visit the fair on Grosvenor Hill.

Theodore Sturges has been elected president of the Connecticut Fish and Game Protective Association. Dr. J. L. Hetzel, of Southport, is one of the executive committee.

Mrs. Hills has had for a guest the past three weeks, Miss Lizzie Sauer of Middletown. The young lady has returned home after a very pleasant visit.

Miss Anna Sherwood is in Bridgeport visiting her brother, Royal Sherwood.

Miss Agnes Callahan is home from a visit to Great Barrington.

Mrs. R. R. Pinkham is home from Derby.

A large coaching party is to start from New York on the 15th of October, and the first stop will be made at the residence of Mr. O. G. Jennings. After a night's rest the party will proceed to New London.

Louisiana alone produces almost as much sulphur as the whole United States consume each year. The only other States in which it was commercially produced last year were Nevada, Utah and Wyoming.

TEETH THAT GET NATURAL

And Look Like the Ones Nature Endowed—That's the Only Kind to Have

WHY PUT UP WITH THE ABOMINABLE?

Natural Dental Methods
Bring About Natural Results—Read Carefully.

Natural looking and natural acting teeth—that's the kind you want. There's no necessity, not even an excuse for your putting up with abominable dental work. Everyone would like to have their own teeth, sound and beautiful, but many are held to early dental breakdown and this is impossible so long as there must be some kind of artificial work in the mouth why not let it be the kind that resembles beyond detection nature's work? Dr. Weidlich, of No. 5 Citizens' Bldg., offers his clients a very encouraging prospect. This able practitioner has made a special study and practice of natural dentistry. Every conceivable method to place your teeth and mouth in its original condition—just as nature made it—is exercised by Dr. Weidlich who cares much more for satisfactory results along practical lines than he does for book theory or what some other doctor has done. Besides the utilizing of Porcelain in which he has been exceedingly successful Dr. Weidlich practices every branch of modern dentistry. From a very few teeth and these not sound he has been known to build entire sets of good serviceable, natural appearing teeth without the use of annoying plates or that anything cumbersome, movable or even foreign in the mouth. Such dental work is a boon to anyone not possessed of sound teeth. Once you have been treated by Dr. Weidlich's natural methods you are immediately free to chew to your heart's content any food set before you for again you find yourself the possessor of good, natural looking teeth that meet every requirement and that you do not have to favor in the slightest when you're eating. And they look as though they are—there are no artificial tendencies. Not a mouthful of gaudy gold crowns, but beautiful pearly porcelain crowns the color of the natural teeth, and the most treated resembles undetectably the very shade of your own teeth. These are the kind of teeth which allow even a fang of good nature or harsh within you surge to the lips parting them in a fascinating smile.

GOES SUDDENLY MAD

Winsted Man Attacks Father, Flees, Caught Later and Locked up.

Winsted, Sept. 15.—Becoming suddenly violently insane, James Clayton yesterday attacked his father, Martin Clayton, who is 75 years old, and a wealthy retired real estate man, formerly of New York, but now living at Granville, and then fled from the house, saying that he was going to "a better place to live—Heaven."

Mr. Clayton, senior, was not hurt. Neighbors fearing that the man intended to make way with himself, organized a searching party and spent a large part of the day hunting for him. Late in the afternoon word was received that he had been seen in the vicinity of Hall Meadow, about four miles from Granville. Officers at once went there, found and brought Clayton back, and locked him up for safety. He was uninjured.

BUMPER HARVEST OF FOREIGN CROPS

(Special from United Press.)
Washington, Sept. 15.—While the American farmer has harvested bumper crops this year, Europe has not been far behind. According to the European correspondent of the Department of Agriculture, the harvest abroad has generally surpassed expectations. Most astonishing of all was the enormous increase in yield of the world's grain crops. European authorities estimate that there will be a gain of from 185 to 270 million bushels in the case of the world's wheat crop, about 265 million bushels more of corn, while oats shows the enormous increase of 857 million bushels above the figures of last year's production. Roumania is almost the only foreign nation to report decreases from the pre-harvest estimates, attributable to severe drought. The hop crop in England will be the lowest on record, the entire crop only being saved from destruction by blight after repeated spraying.

CLEARING UP SALE

During this month we sort over our stock of Watches and Jewelry and begin making preparations for Fall and Holiday lines.

All odd pieces and broken assortments will be offered at great discounts, and everyone anticipating purchases will do well to visit our store while these discounts are offered.
